FORMAT				
1. Name of resource	A Sustainable Development Guide for Canada's Museums			
2. Location	https://www.museums.ca/client/document/documents.html?categoryId=361			
3. Alternative location				
4. Author[s]				
<ol><li>Publisher/producer/ host</li></ol>	Canadian Museums Association			
6. Year	2006			
7. Suggested citation	Canadian Museums Association (2006). A Sustainable Development Guide for Canada's Museums, available at <a href="https://www.museums.ca/client/document/documents.html?categoryId=361">https://www.museums.ca/client/document/documents.html?categoryId=361</a> .			
8. Languages in which available	English, French			
9. Geographic area resource relates to	Canada, but global relevance.			
10. Does the resource relate to a specific time frame?				
11. Туре	Report Yes			
	Toolkit/Framework/Roadmap	Yes		
	Sign-post to other resource (database)  Yes (extensive references)			
	Case studies Yes			
	Other			
12. If this is part of an initiative, what is the initiative?				
<b>COLLECTIONS AND COLLECTI</b>	ONS-BASED INSTITUTIONS			
13. Explicit links to collections	Yes			
14. Explicit links to museums/libraries/a rchives	Yes			
15. Types of institutions	Museums X			
the resource covers	Archives X			
	Libraries X			
	Other X			
16. Does the resource	Arts, humanities and social X			
relate to specific	sciences: philosophy,			
disciplines?	psychology, religion, social sciences, law, politics,			
	language, arts and			
	recreation, architecture,			

	II I			
	literature, history,			
	geography and ethnology,			
	anthropology, archaeology			
	Science, natural history,	Х		
	technology, medicine,			
	engineering, manufacturing			
17. If no explicit links to				
collections,				
justification for				
inclusion				
HOW IT CONTRIBUTES TO SU				
	tivities the resource relates to		l that apply)

#### **SDGs AND SDG TARGETS AND LINKAGES**

### 34. Comments on SDG linkages

The resource is primarily focussed on environmental sustainability. Implementing the resource links with many SDGs and SDG targets.

Overall, the resource is most closely linked with SDG 12.6 (adopting sustainable practices).

Chapter 1 relates to SDGs 12.6 and 17.14 (policy coherence for sustainable development).

Chapter 2 relates to SDGs 8.8 (on a healthy, secure workplace) and SDG 4.4 (staff training).

Chapters 3, 4 and 5 relate to SDGs 12.2 (sustainable use of natural resources), 12.4 (managing chemicals and chemical waste), 12.5 (reducing waste generation and increasing reuse and recycling), 6.3 (reducing pollution of water), 11.6 (addressing air pollution), 8.4 (resource efficiency) and 14.1 (preventing marine pollution), many of which contribute to climate action (SDG 13.3). Chapter 5 also relates to the learning environment (SDG 4.A), and the uptake of digital technologies (SDG 9.C). Chapter 6 also relates to SDG 12.3 (reducing food waste). Chapter 7 relates to sustainable procurement (SDG 12.7). Chapters 8 and 9 also relate to SDGs 6.3, 12.4, 12.5 and 14.1 on management of wastes.

Chapter 10 relates to energy and resource use of building, the subjects of SDGs 7.2 (green energy use), 7.3 (energy efficiency), 6.4 (water efficiency), 9.1 and 9.4 (develop and upgrade infrastructure), 13.3 (climate action), and providing inclusive green spaces (SDG 11.7).

Chapter 11 relates to green transport (part of SDGs 7.2, 7.3, 9.1, 11.2, and 13.3).

Chapter 12 relates to funding, which forms part of SDGs 16.6 (effective, accountable and transparent institutions) and 17.17 (multistakeholder partnerships).

Chapter 13 is concerned with communicating institutions' sustainable practices, which contributes to SDGs 12.6 (sustainable practices and reporting), 16.6 (effective, accountable and transparent institutions) and 16.10 (access to information). Education programmes on sustainability contributes to SDGs 4.7 (Education for Sustainable

Development), 12.8 (information for lifestyles in harmony with nature) and 13.3 (climate change education).

Chapter 14 is concerned with using recognized standards, so supports SDGs 12.6 (sustainable practices and reporting), 16.6 (effective, accountable and transparent institutions) and 16.10 (access to information).

### 35. SDGs and SDG targets the resource helps advance

# SDG 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.4 By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship

Number of young people and adults in skills-development activities and programmes drawing on collections, for employment, decent jobs and entrepreneurship

Increase in number of young people and adults in such programmes

Number and proportion of staff who have received training in the last year, to better support their contribution to the SDGs.

Programs and processes in place to ensure the availability of a skilled workforce.

# SDG 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.7 By 2030, ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and nonviolence, global citizenship and appreciation of cultural diversity and of culture's

Numbers of people in each type of programme drawing on collections from different demographic groups.

Increases in numbers of people in each type of programme from different demographic groups.

Proportion of people involved in such programmes in relation to overall audience size.

Evidence that learners have acquired knowledge and skills to promote sustainable development.

contribution to sustainable	
development	
SDG 4. Ensure inclusive and	
equitable quality education and promote lifelong	Number and proportion of education facilities that are child, disability and gender sensitive.
learning opportunities for all  4.A Build and upgrade education facilities that are child, disability and gender sensitive and provide safe,	Proportion of education facilities that provide safe, non-violent, inclusive and effective learning environments for all.  Number and type of initiatives to improve effectiveness of
non-violent, inclusive and effective learning	learning environments.
environments for all	Support given to other education facilities to make them more inclusive and effective.
SDG 6. Ensure availability	
and sustainable management of water and sanitation for all	Amount of pollutants, and reduction in pollutants, to water systems.
6.3 By 2030, improve water	Plans in place for the identification, reduction, replacement
quality by reducing pollution, eliminating	and recycling of hazardous chemical and materials, to prevent their release into water systems, with plans to
dumping and minimizing	eliminate their use as soon as possible.
release of hazardous	
chemicals and materials,	
halving the proportion of	
untreated wastewater and	
substantially  SDG 6. Ensure availability	
and sustainable	Reductions in water use, increase in water recycling,
management of water and	preventing water shortages in vicinity.
sanitation for all	
6.4 By 2030, substantially	Information on, programmes relating to, and partnerships
increase water-use	relating to water use drawing on collections and
efficiency across all sectors	collections-based institutions in place, to support efficient
and ensure sustainable withdrawals and supply of	use of water.
freshwater to address	
water scarcity and	
substantially reduce the	
number of people suffering	
from water scarcity	
SDG 7. Ensure access to	Drapartian of anargy that sames from responsible sources
affordable, reliable, sustainable and modern	Proportion of energy that comes from renewable sources.
energy for all	Date to achieve net zero, and milestones towards that

	<del>-</del>
7.2 By 2030, increase substantially the share of renewable energy in the global energy mix	date.
SDG 7. Ensure access to affordable, reliable, sustainable and modern energy for all 7.3 By 2030, double the global rate of improvement in energy efficiency	Reduction in energy use.  Upgrade of old equipment to more efficient equipment.  Uptake of renewable sources of energy.
spg 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all 8.4 Improve progressively, through 2030, global resource efficiency in consumption and production and endeavour to decouple economic growth from environmental degradation, in accordance with the 10-Year Framework of Programmes on Sustainable Consumption and Production, with developed countries taking the lead	Plans in place to increase resource efficiency, reduce consumption, and to decouple economic growth from environmental degradation.
SDG 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all 8.8 Protect labour rights	Number and proportions of staff working with collections in safe and secure working environments.  Number of accidents and other health and safety incidents reported.
and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment	Training and support provided for staff to ensure their wellbeing, health and safety.  Education, awareness-raising and partnership programmes drawing on collections that address labour rights, notably those of migrant workers and others in precarious employment.

Reduction of numbers and proportions of staff on short-term or zero-hours contracts.

Fair pay policies and procedures in place to prevent exploitation.

Procurement policies that ensure that collecting institutions make use of people who are in decent employment, and that avoid exploitation throughout the supply chain.

# SDG 9. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all

Development of research-useful collections to support reliable, sustainable and resilient use by researchers and others.

Number and proportion of collections facilities and stores that support economic development and human wellbeing.

Number and proportion of collections facilities and stores that provide affordable and equitable access for all.

Investment in collections facilities.

Inclusion of collections information in regional and transborder initiatives, notably via digital access for discoverability.

# SDG 9. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities

Number and proportion of collections facilities that: 1.make efficient use of resources, with an ongoing drive for efficiencies and reductions in energy use and waste

- 2. use clean and environmentally sound technologies, including climate-friendly energy sources and materials, with an ongoing commitment to reduce greenhouse gas emissions and waste
- 3. adopt and/or prioritise collections-related processes and practices to reduce greenhouse gas emissions and waste
