HOW IT CONTRIBUTES TO SUSTAINABLE DEVELOPMENT		
18. Collections-related activities the resource relates to (mark all that apply)		
Develop collections to protect and safeguard wider cultural and natural heritage more effectively, and that support sustainable development for example by targeting collecting to threatened forms of heritage in strategic ways		
Use collections to promote learning and educational opportunities that contribute to sustainable development more effectively , for example education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development and/or skills development relating to collections		X
Use collections to promote cultural participation/social inclusion more effectively , for example by reducing barriers to participation, to ensure no-one is 'left behind'		X
Use collections to promote sustainable tourism more effectively , for example by developing new products based on local cultural heritage, and/or considering the rights of stakeholder groups in relation to collections		
Use collections to support research that contributes to sustainable development (including all forms of personal and self-directed research at all levels that make use of stored collections) more effectively, for example by providing effective facilities, collections and information to meet researchers' needs		
Make decisions around collections that contribute to sustainable development more effectively		
i. employment (recruiting, staff training, staff safety)		X
ii. energy consumption, greenhouse gas emissions, reduction, monitoring and reporting		
iii. waste management and reduction of waste		
iv. transport (forms of transport, energy use)		
v. commercial activities including copyright and IP		
vi. governance and management		
vii. security, disaster preparedness and risk reduction		

Direct external leadership, partnerships and collaborations towards sustainable development more effectively , for example by developing impactful partnerships

AIMS AND CONTENT	
20. What issues does the resource aim to address?	<p>“Heritage collections have the power to connect people across different age groups. An intergenerational approach has been shown to boost self-worth in older adults, while the exchange of valuable cultural information and ideas between young people and their elders can be transformative for both groups. This dialogue has the potential to help achieve better social cohesion and can be facilitated as part of a museum’s outreach activities...” (p.1)</p> <p>“Here you will find practical tools for promoting collections-mediated intergenerational dialogue, based on the following three approaches to communication:</p> <p>STORYTELLING is the most traditional mechanism for cultural transmission and a natural choice for intergenerational programmes, particularly those relying on the sophisticated relationships between objects and oral histories.</p> <p>CO-CREATION is a way for audiences to actively participate in the conception and realization of cultural programmes, similarly to how citizen science engages the public in scientific research. This helps ensure such programmes have relevance to society.</p>

	MENTORING is a form of one-on-one training, usually involving a senior person (the mentor) supporting the personal development of someone younger (the mentee). However, the learning in a mentorship can go both ways.” (p.1)
21. Intended audience of resource	“Professionals and volunteers working with heritage collections, who are looking to fulfil their collections’ potential to benefit society by organizing outreach programmes involving people from different age groups. It is ideal for those looking to create dedicated spaces within their institutions for these groups to come together and interact (known as intergenerational contact zones).” (p.1)
