SDGs AND SDG TARGETS AND	
34. Comments on SDG	The resource is most closely linked to targets around health,
linkages	Disaster Risk Reduction and education, including 1.5 (build
	the resilience of the poor), 3.3 (end the epidemics of AIDS
	and other diseases), 3.D (strengthen countries' abilities to
	cope with national and global health risks), 4.4 (staff skills),
	4.7 (Education for Sustainable Development), 11.5 (reduce
	the impact of disasters), 11.B (integrated policies for
	inclusion and Disaster Risk Reduction), 12.8 (information for sustainable development and lifestyles in harmony with
	nature), 13.3 (climate education), 16.10 (protect freedom of
	information and fundamental freedoms), 16.B (enforce laws
	and policies for sustainable development), 17.14 (policy
	coherence for sustainable development), 17.14 (policy
	(international partnerships) and 17.17 (cross-sector
	(international partiterships) and 17.17 (Closs-Sector

partnerships). The resource can also inform programmes related to preventing the illegal wildlife trade, supporting SDGs 15.7 and 15.C (the latter on building international support to tackle the illegal wildlife trade).

35. SDGs and SDG targets the resource helps advance

SDG 1: End poverty in all its forms everywhere

1.5 By 2030, build resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climaterelated extreme events and other economic, social and environmental shocks and disasters.

Number of collecting programmes that aim to build resilience to climate-related events and other shocks and disasters, for example by forming collections that can contribute to related educational and research programmes.

Number of educational programmes drawing on collections that incorporate resilience perspectives.

Number of targeted programmes drawing on collections that are aimed at vulnerable groups, to build their resilience to climate-related and other shocks and disasters.

Number of research programmes drawing on collections that are aimed at building resilience to climate-related and other shocks and disasters.

Strengthen the resilience of employees, communities and suppliers by paying at a minimum the living wage and offering insurance to employees and their families, such as accident insurance; and by paying fair prices to all suppliers

SDG 3: Ensure healthy lives and promote well-being for all at all ages

3.3 By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, waterborne diseases and other communicable diseases

Collection development that can contribute to programmes addressing AIDS, tuberculosis, malaria and/or neglected tropical diseases, combat hepatitis, water-borne diseases and other communicable diseases.

Number of educational programmes addressing these subjects.

Number of targeted educational and participatory programmes for marginalized and at-risk groups relating to communicable diseases.

Number of research activities that help understand the causes and manage impacts of tuberculosis, malaria and other communicable diseases.

	Partnerships in place to help ensure effective governance of communicable diseases, public health information and education relating to communicable diseases. Steady flow of reliable information relating to communicable diseases.
SDG 3: Ensure healthy lives and promote well-being for all at all ages 3.D Strengthen the capacity of all countries, in particular developing countries, for early warning, risk reduction and management of national and global health risks.	Number of collecting initiatives that aim to build capacity for risk reduction to national and global health risks, for example by storing and preserving collections that may be of use in post-disaster scenarios, or that can be used in early warning and risk communication activities. Number of educational programmes incorporating perspectives on early warning, risk reduction and management of national and global health risks.
	Number of awareness raising programmes that target marginalized and vulnerable groups most exposed to health risks.
	Plans in place for early warning, risk reduction and management to national and global health risks.
	Relationships and partnerships in place for risk reduction and management in light of national and global health risks.
SDG 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all 4.4 By 2030, substantially	Number of young people and adults in skills-development activities and programmes drawing on collections, for employment, decent jobs and entrepreneurship
increase the number of youth and adults who have relevant skills, including technical and	Increase in number of young people and adults in such programmes
vocational skills, for employment, decent jobs and entrepreneurship	Number and proportion of staff who have received training in the last year, to better support their contribution to the SDGs.
	Programs and processes in place to ensure the availability of a skilled workforce.
SDG 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all	Numbers of people in each type of programme drawing on collections from different demographic groups.
4.7 By 2030, ensure that all learners acquire the knowledge and skills needed	Increases in numbers of people in each type of programme from different demographic groups.

to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development

Proportion of people involved in such programmes in relation to overall audience size.

Evidence that learners have acquired knowledge and skills to promote sustainable development.

SDG 11. Make cities and human settlements inclusive, safe, resilient and sustainable

11.5 By 2030, significantly reduce the number of deaths and the number of people affected and substantially decrease the direct economic losses relative to global gross domestic product caused by disasters, including water-related disasters, with a focus on protecting the poor and people in vulnerable situations

Collections-based research that supports the understanding and management of disasters of all kinds.

Plans in place for public education and awareness drawing on collections and collections-based institutions to reduce exposure and vulnerability to disasters of all kinds.

Plans in place to ensure collections-based institutions steadily work to reduce their contributions to disaster risk, for example by reducing pollution and waste of all kinds.

Plans in place to ensure collections-based institutions, and people related to them (including workers) are protected from economic losses as a result of disasters.

Plans in place to provide special support/protection to poor and vulnerable people and groups in and following disasters.

SDG 11. Make cities and human settlements inclusive, safe, resilient and sustainable

11.B By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the

11.B.1 Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030a

Disaster Risk Reduction strategies and plans in place, in line with the Sendai Framework for Disaster Risk Reduction, to ensure collecting institutions and collections are factored into planning, and contribute effectively to Disaster Risk Reduction.

SDG 17 Partnerships for the	
SDG 17. Partnerships for the	

goals

17.14 Enhance policy			
coherence for sustainable			
development			

Proportion of policies that incorporate sustainable development considerations, linking to SDGs and targets.

Incorporation of policy considerations from outside the collections sector into policies of collections-based institutions, to facilitate partnerships and effectiveness.

SDG 17. Partnerships for the goals

17.16 Enhance the global partnership for sustainable development, complemented by multi-stakeholder partnerships that mobilize and share knowledge, expertise, technology and financial resources, to support the achievement of the sustainable development goals in all countries, in particular developing countries

Number and/or increase in number, and diversity of global and international multi-stakeholder partnerships that share collection-related knowledge, expertise, technology and financial resources to address the SDGs, or that otherwise involve collections-based organisations and institutions.

Number and/or increase in number, and diversity of global and international multi-stakeholder partnerships involving developing countries that share collection-related knowledge, expertise, technology and financial resources to address the SDGs.

SDG 17. Partnerships for the goals

17.17 Encourage and promote effective public, public-private and civil society partnerships, building on the experience and resourcing strategies of partnerships

17.17.1 Amount of United States dollars committed to public-private and civil society partnerships

Number and/or increase in number, and diversity of local, national and regional multi-stakeholder (public, public-private and civil society) partnerships that address the SDGs drawing on collections, or that otherwise involve collections-based organisations and institutions.
