SDGs AND SDG TARGETS AND LINKAGES			
34. Comments on SDG linkages	The resource is most closely related to SDGs around Disaster Risk Reduction, planning and inclusion, including SDGs 1.5 (reduce the vulnerability of the poor to climate and other hazards), 2.4 (food security), 3.D (preparation for health emergencies), 4.4 (staff training), 4.7 (Education for		
	Sustainable Development), 9.1 (sustainable infrastructure),		

9.5 (support for scientific research), 10.2 (universal social inclusion), 11.4 (protect and safeguard cultural and natural heritage), 11.5 (reduce the impact of disasters), 11.B (Implement policies for inclusion, resource efficiency and disaster risk reduction), 12.8 (information for sustainable development and lifestyles in harmony with nature), 13.1 (Strengthen resilience and adaptive capacity to climate related disasters), 13.3 (Build knowledge and capacity to meet climate change), 13.B (inclusive climate action in developing countries), 16.6 (effective, accountable and transparent institutions), 16.7 (inclusive decision making), 16.10 (protect the right to information), 16.B (policies and laws for sustainable development), 17.14 (policy coherence for sustainable development), 17.16 and 17.17 (global and local partnerships respectively).

#### 35. SDGs and SDG targets the resource helps advance

#### SDG 1: End poverty in all its forms everywhere

1.5 By 2030, build resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climaterelated extreme events and other economic, social and environmental shocks and disasters.

Number of collecting programmes that aim to build resilience to climate-related events and other shocks and disasters, for example by forming collections that can contribute to related educational and research programmes.

Number of educational programmes drawing on collections that incorporate resilience perspectives.

Number of targeted programmes drawing on collections that are aimed at vulnerable groups, to build their resilience to climate-related and other shocks and disasters.

Number of research programmes drawing on collections that are aimed at building resilience to climate-related and other shocks and disasters.

Strengthen the resilience of employees, communities and suppliers by paying at a minimum the living wage and offering insurance to employees and their families, such as accident insurance; and by paying fair prices to all suppliers

# SDG 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture 2.4 By 2030, ensure

sustainable food production

Collections development related to sustainable food production where appropriate.

Number of educational and awareness-raising programmes incorporating sustainable food production perspectives,

systems to implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality.

and that aim to reduce the impact of disasters on communities.

Number of targeted programmes that support those most exposed and vulnerable to disasters, whether locally or farther afield.

Number of research activities drawing on collections that relate to resilient agricultural practices, helping mitigate and adapt to climate change, flooding and other disasters.

Policies and plans in place to eliminate unsustainable food production from supply chains and in any food provision in collections-based institutions.

Number of partnership activities drawing on collections that contribute to Disaster Risk Reduction plans, supporting resilient agricultural practices, and helping mitigate and adapt to climate change, flooding and other disasters.

### SDG 3: Ensure healthy lives and promote well-being for all at all ages

3.D Strengthen the capacity of all countries, in particular developing countries, for early warning, risk reduction and management of national and global health risks.

Number of collecting initiatives that aim to build capacity for risk reduction to national and global health risks, for example by storing and preserving collections that may be of use in post-disaster scenarios, or that can be used in early warning and risk communication activities.

Number of educational programmes incorporating perspectives on early warning, risk reduction and management of national and global health risks.

Number of awareness raising programmes that target marginalized and vulnerable groups most exposed to health risks.

Plans in place for early warning, risk reduction and management to national and global health risks.

Relationships and partnerships in place for risk reduction and management in light of national and global health risks.

# spg 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all 4.4 By 2030, substantially increase the number of youth

Number of young people and adults in skills-development activities and programmes drawing on collections, for employment, decent jobs and entrepreneurship

and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship Increase in number of young people and adults in such programmes

Number and proportion of staff who have received training in the last year, to better support their contribution to the SDGs.

Programs and processes in place to ensure the availability of a skilled workforce.

## SDG 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

4.7 By 2030, ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development

Numbers of people in each type of programme drawing on collections from different demographic groups.

Increases in numbers of people in each type of programme from different demographic groups.

Proportion of people involved in such programmes in relation to overall audience size.

Evidence that learners have acquired knowledge and skills to promote sustainable development.

# SDG 9. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and transborder infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all

Development of research-useful collections to support reliable, sustainable and resilient use by researchers and others.

Number and proportion of collections facilities and stores that support economic development and human well-being.

Number and proportion of collections facilities and stores that provide affordable and equitable access for all.

Investment in collections facilities.

Inclusion of collections information in regional and transborder initiatives, notably via digital access for discoverability.

## SDG 9. Build resilient infrastructure, promote inclusive and sustainable industrialization

9.5 Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending

Number and proportion of collections facilities that effectively support research and researchers.

Number and proportion of staff who are appropriately skilled to undertake and support collections-based research.

Expenditure on initiatives to enhance and upgrade collections facilities.

Numbers of staff engaged in supporting and developing research use based on collections.

Number of initiatives to encourage innovation drawing on collections.

Increase in number of research and development workers per 1 million people.

Increase in public and private research and development spending being used to develop and make use of collections.

### SDG 10. Reduce inequality within and between countries

10.2 By 2030, empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status

Collections development to ensure that collections effectively meet the needs of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status.

Number and proportion of educational and participatory programmes that promote participation irrespective of social or other status.

Numbers and proportions of people making use of collections in relation to the demographic of the local population.

Numbers and proportions of people involved in focused programmes aimed at promoting social, economic and political inclusion.

Numbers and proportions of people from different demographic groups involved in decision-making processes relating to collections and collections-based institutions.

	Number and types of partnerships that build relationships with marginalized groups, individuals and communities.
SDG 11. Make cities and human settlements inclusive, safe, resilient and sustainable	11.4.1 Total expenditure (public and private) per capita spent on the preservation, protection and conservation of all cultural and natural heritage, by type of heritage
11.4 Strengthen efforts to protect and safeguard the world's cultural and natural heritage	Plans, policies and procedures in place for the safe use of collections for a variety of purposes, protecting and safeguarding both collections and those who use them.
	Plans, policies and procedures in place for the identification, safeguarding and protection of cultural and natural heritage at risk.
	Collecting programmes in place to protect, safeguard and make use of cultural and natural heritage, addressing the needs of communities and stakeholders, and ensuring that collections can be an effective resource for sustainable development.
	Number and diversity of educational, awareness-raising, research programmes, and partnerships that aim to strengthen protection of cultural and natural heritage.
SDG 11. Make cities and human settlements inclusive, safe, resilient and sustainable	Collections-based research that supports the understanding and management of disasters of all kinds.
11.5 By 2030, significantly reduce the number of deaths and the number of people affected and substantially	Plans in place for public education and awareness drawing on collections and collections-based institutions to reduce exposure and vulnerability to disasters of all kinds.
decrease the direct economic losses relative to global gross domestic product caused by disasters, including water-	Plans in place to ensure collections-based institutions steadily work to reduce their contributions to disaster risk, for example by reducing pollution and waste of all kinds.
related disasters, with a focus on protecting the poor and people in vulnerable situations	Plans in place to ensure collections-based institutions, and people related to them (including workers) are protected from economic losses as a result of disasters.
5.53.50.5	Plans in place to provide special support/protection to poor

and vulnerable people and groups in and following

disasters.

## SDG 11. Make cities and human settlements inclusive, safe, resilient and sustainable

11.B By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all levels

## 11.B.1 Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030a

Disaster Risk Reduction strategies and plans in place, in line with the Sendai Framework for Disaster Risk Reduction, to ensure collecting institutions and collections are factored into planning, and contribute effectively to Disaster Risk Reduction.

## SDG 12 Ensure sustainable consumption and production patterns

12.8 By 2030, ensure that people everywhere have the relevant information and awareness for sustainable development and lifestyles in harmony with nature

# 12.8.1 Extent to which (i) global citizenship education and (ii) education for sustainable development (including climate change education) are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment

Extent to which global citizenship education and education for sustainable development (including climate change education) are mainstreamed in formal, informal and nonformal education programmes and activities drawing on and related to collections.

### SDG 13. Take urgent action to combat climate change and its impacts

13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries Plans in place for near and longer term to withstand and actively adapt to climate-related hazards and natural disasters.

## SDG 13. Take urgent action to combat climate change and its impacts

13.3 Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation,

Plans in place to enhance positive contributions to addressing climate change through use of collections. Plans in place to ensure collections, collections institutions and broader society can adapt effectively to climate change.

impact reduction and early warning	Plans in place for effective education and awareness raising on climate change mitigation, adaptation, impact reduction and early warning.
	Plans in place to reduce negative contributions of collections-related functions, e.g. measuring greenhouse emissions with plans and targets in place to reduce them.
SDG 13. Take urgent action	
to combat climate change	Number of initiatives (educational, awareness-raising,
and its impacts	research, and/or partnerships) drawing on collections and
13.B Promote mechanisms	collections-based institutions that build capacity for climate
for raising capacity for	change planning and management in least developed
effective climate change-	countries and small island developing States.
related planning and	
management in least	Number of targeted initiatives drawing on collections and
developed countries and	collections-based institutions aimed at building capacity for

SDG 17. Partnerships for the			
SDG 17. Partnerships for the goals	Proportion of policies that incorporate sustainable		
	Proportion of policies that incorporate sustainable development considerations, linking to SDGs and targets.		

17.14 Enhance policy
coherence for sustainable
development

Incorporation of policy considerations from outside the collections sector into policies of collections-based institutions, to facilitate partnerships and effectiveness.

#### SDG 17. Partnerships for the goals

17.16 Enhance the global partnership for sustainable development, complemented by multi-stakeholder partnerships that mobilize and share knowledge, expertise, technology and financial resources, to support the achievement of the sustainable development goals in all countries, in particular developing countries

Number and/or increase in number, and diversity of global and international multi-stakeholder partnerships that share collection-related knowledge, expertise, technology and financial resources to address the SDGs, or that otherwise involve collections-based organisations and institutions.

Number and/or increase in number, and diversity of global and international multi-stakeholder partnerships involving developing countries that share collection-related knowledge, expertise, technology and financial resources to address the SDGs.

#### SDG 17. Partnerships for the goals

17.17 Encourage and promote effective public, public-private and civil society partnerships, building on the experience and resourcing strategies of partnerships

### 17.17.1 Amount of United States dollars committed to public-private and civil society partnerships

Number and/or increase in number, and diversity of local, national and regional multi-stakeholder (public, public-private and civil society) partnerships that address the SDGs drawing on collections, or that otherwise involve collections-based organisations and institutions.
