HOW IT CONTRIBUTES TO SUSTAINABLE DEVELOPMENT		
18. Collections-related activities the resource relates to (mark all that apply)		
Develop collections to protect and safeguard wider cultural and natural heritage more effectively , for example by targeting collecting to threatened forms of heritage in strategic ways		
Use collections to promote learning and educational opportunities that contribute to sustainable development more effectively , for example education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development and/or skills development relating to collections		X
Use collections to promote cultural participation/social inclusion more effectively , for example by reducing barriers to participation, to ensure no-one is 'left behind'		X
Use collections to promote sustainable tourism more effectively , for example by developing new products based on local cultural heritage, and/or considering the rights of stakeholder groups in relation to collections		
Use collections to support research that contributes to sustainable development (including all forms of personal and self-directed research at all levels that make use of stored collections) more effectively, for example by providing effective facilities, collections and information to meet researchers' needs		
Make decisions around collections that contribute to sustainable development more effectively		
i. employment (recruiting, staff training, staff safety)		
ii. energy consumption, greenhouse gas emissions, reduction, monitoring and reporting		
iii. waste management and reduction of waste		
iv. transport (forms of transport, energy use)		
v. commercial activities including copyright and IP		
vi. governance and management		X

vii. security, disaster preparedness and risk reduction	
Direct external leadership, partnerships and collaborations towards sustainable development more effectively , for example by developing impactful partnerships

AIMS AND CONTENT	
20. What issues does the resource aim to address?	<p>“As respected community and resource centers, libraries are well positioned to mobilize citizens to learn about climate change and take action—at home, in our towns and cities and around the world. Together we can future-proof and adapt. At this unique turning point in history, we are the generation to rescue our collective future by dismantling systemic oppressions, reversing overconsumption, creating protective and forward-thinking policies, and enabling practices that put people and planet first and prioritize a just energy transition.</p> <p>In the face of dire climate change events, Resilient Communities: Libraries Responding to Climate Change showcases the ever-flexible and nimble role of library workers. And there is so much to showcase! Across the country, libraries and other institutions are finding their allies, banding together, and making ripples of change. In the face of chaos and uncertainty, they are teaching climate science, self-regulation practices, dialogue and deliberation skills, kindness for one another and the Earth. In this guide, we share just a sliver of the exciting work that is already in motion.</p> <p>We invite you and your library to join us as change-makers in this work. Because the fact is, we cannot return to business as usual. A new story is unfolding, a shift in narrative from hierarchy to complexity, interdependence and interbeing. In this time of</p>

	intersecting crises—the climate change emergency, systemic racism, COVID-19—we must pivot, transform, stretch, reflect, listen, demand, act. We need to act as if our lives depend on it, because they do.” (p.3)
21. Intended audience of resource	Libraries
22. Process of development	<p>“Resilient Communities: Libraries Respond to Climate Change, an initiative of the American Library Association (ALA), helps libraries engage their communities in programs and conversations that address the climate crisis.</p> <p>The pilot program (2020-21) funded film screenings, community dialogues and related events based on local interest in 25 public and academic libraries. It also funded the creation of a suite of free programming resources about the climate crisis that is available to all libraries.”</p>
