AIMS AND CONTENT	
20. What issues does the resource aim to address?	<p>“Climate justice strengthens current and new climate action initiatives to be more effective and efficient. As climate change intensifies, often the most severe harm falls disproportionately on frontline and underserved communities, who are least able to prepare for and recover from climate disasters. Vulnerability to climate change is exacerbated by extractive forms of capitalism and widespread inequality that marginalizes specific communities. For example, a recent report by the Environmental Protection Agency (EPA) found Black and African American people in the United States are 40% more likely to live in areas where extreme temperatures lead to more deaths. This likelihood increases to 59% if global warming reaches 4°C.” (Foreword)</p>
21. Intended audience of resource	<p>“This guide is for business leaders, changemakers, and entrepreneurs committed to centering equity and justice as part of their climate action efforts. It is for those willing and ready to take on new leadership approaches requiring a profound shift from the traditional mindset rooted in authoritative so-called expert roles. This new leadership approach focuses on a regenerative mindset, embracing humility and learning and acknowledging the need for collaboration and partnerships between businesses and frontline communities to address the climate crisis.” (About this guide)</p>
